

## Find that plant!

When choosing plants for your outdoor space, it's important to remember  
**'right plant, right place'!**

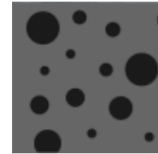

This means choosing plants that will do their best in the soil, weather and space that you have. Using the RHS online 'Find a plant' tool, can you find plants that suit these different outdoor spaces?

1

This space has:

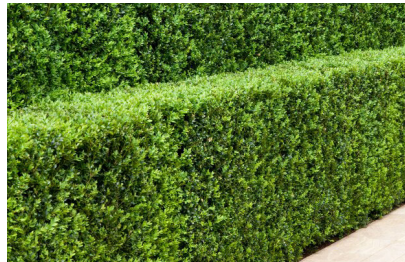

full sun

loamy soil

The school want to plant:

hedging

What plants can you find that would help this school?
