

# Pollinator Count Insect Recording Sheet

For every insect that **LANDS** on the chosen flowers, record a tally next to the correct insect category below. Don't count them if they just fly past.

Example:

Start the timer for 5 minutes

Type of insect	Count <i>(Record your tallies below)</i>	Total number <i>(Add up your tallies and put the numbers below)</i>
<b>Bumblebees and look-alikes</b> (all-over fluffy bodied, round bees) 		
<b>Other bees, flies &amp; wasps</b> (insects with see-through or shiny wings) 		
<b>Butterflies and moths</b> 		
<b>Tiny insects</b> (anything smaller than a grain of rice) 		
<b>Other insects</b> (anything that doesn't fit into the categories above) 		
We don't know what it is 		

Once the time is up, add up how many of each type of insect you saw and write this in the right-hand column. Then enter these numbers into Question 7 on your mobile device.
